COLD TREATMENT OF SEED POTATOES (Le Traitement Frigorifique des Semences de Pommes de Terre). [1963] [16p] (foreign text included) 2refs
Order from SLA $1.60 TT-64-14288

Trans. of International Inst[itute] of Refrigeration. Bulletin. Annexe (France) 1963 [v.] 1962-2, p. 71-78. (Abstract available)

DESCRIPTORS: *Potatoes, *Seeds, Cooling, Storage, Growth (Physiology), Preservation, Refrigeration systems.

Methods using chemicals or irradiation gives satisfactory results for the storage of table potatoes. But the storage of seed potatoes raises an additional problem: that of their reproductive power. The dormancy of seedlings, i.e. no sprouting may be lengthily extended at temperatures near or slightly lower than 35°F.
